

Breno Cidade

Full Stack Developer | Node.js & .NET

📍 Salvador, Brazil ✉ brenocidadedev@gmail.com 📞 (71) 99923-2872 🔗 brenocidade 🌐 BrenoCidade

Experience

Full Stack Developer, Elastic Code – Remote Feb 2025 – present

- Role in Project A (Multi-tenant): SaaS platform development with NestJS, React, and PostgreSQL, managing data isolation and performance
- Implementation of Omnichannel communication module integrating Instagram, WhatsApp, and Messenger via Meta API
- Role in Project B (Current): Corporate solution development using C#/.NET with Clean Architecture and DDD (Domain-Driven Design)
- Advanced Front-end Engineering in the .NET project, using React with TanStack Router for route management and type-safe state

Software Development Intern, Compass UOL – Remote Mar 2025 – Sept 2025

- Serverless API development using AWS Lambda and API Gateway with Node.js
- Modeling and implementation of NoSQL databases (DynamoDB) for high availability
- Collaboration in projects using agile methodologies (Scrum)

Projects & Awards

Winner of CARF Hackathon 2025 (1st Place) - PreviFlow – Salvador 2025 – present

- Machine Learning solution for predicting fiscal administrative processes
- Full Stack role (Python/FastAPI and React) and implementation of predictive models

Skills

Languages: TypeScript, C#, JavaScript, Python, Java

Backend & Architecture: NestJS, .NET (Clean Arch, DDD), Node.js, Spring Boot

Frontend: React, Next.js, TanStack Router, Tailwind CSS

Cloud & DevOps: AWS (S3, Lambda, EC2), CI/CD (GitHub Actions), Docker, Git

Databases: PostgreSQL, MySQL, DynamoDB, MongoDB

Education

Unifacs, Associate Degree in Analysis and Systems Development Jan 2024 – June 2026

- Focus on Software Engineering and Distributed Systems Architecture

Courses & Certifications

AWS Certified Cloud Practitioner (AWS): Official AWS Certification (Cloud concepts, security, and architecture)

AWS Specialization (Udemy): Practical focus on EC2, S3, CloudFront, and Serverless Computing
